WE'RE
CLEANING UP
INDUSTRIAL
SOAPS...
WITH ZEOSOFT™

ANNOUNCING A NEW ERA IN INDUSTRIAL STRENGTH HAND CLEANING:

HIGH PERFORMANCE NATURAL PRODUCTS

- Effectively rid your hands of the toughest industrial dirt, grease and odours.
- Leave your hands feeling fresh and supple.
- Totally natural – contain soft silica and soft active zeolite.

ZEOSOFT™ - The soft soap that works hard

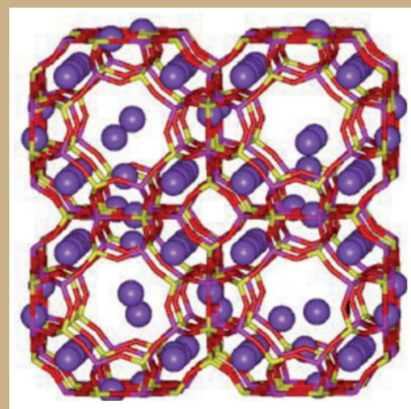

- Naturally removes oil, grease, grime, paint, dirt, odours, contaminants...
- Hard on dirt, soft on hands and the environment.

ZEOSOFT™ Natural ingredient blend – a new form of cleaner

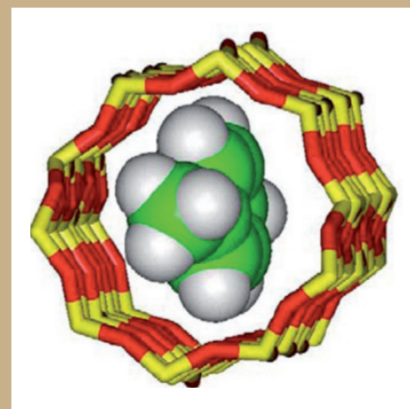

- Unlike chemicals-based hand cleaners it is non-hazardous, and doesn't strip your hands or leave them irritated.
- Unlike chemicals-based hand cleaners it doesn't replace dirt and odours with chemical odours and then mask these with fragrances. It absorbs and removes.

WHY DO ZEOSOFT™ HAND CLEANERS WORK SO WELL?

- ZEOSOFT™ hand cleaners contain a natural blend of active minerals, formed uniquely from fine volcanic ash by geothermal hot springs.
- SoftZeolite™ unique cage-like structures attract and trap undesirable gases (odours), compounds like oils and grease and other contaminants.
- SoftZeolite™ minerals also gently scrub the surface of your hands.
- Soft silica helps the interaction with your skin.
- Ingredients from plants add other cleaning properties of a good hand cleaning soap.

Cage-like structure of the minerals

Entrapment

WHY ARE ZEOSOFT™ HAND CLEANERS BETTER FOR YOU?

CLEANS WITHOUT HARSH ABRASIVES

REMOVES ODOURS FROM SKIN

GENTLY EXFOLIATES YOUR SKIN

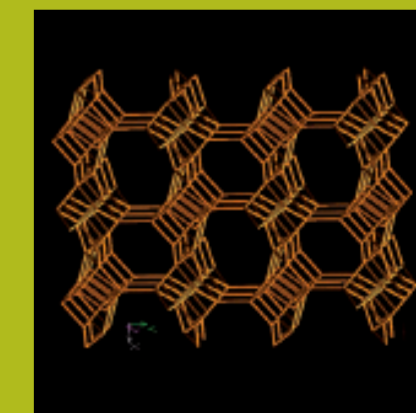

**LEAVE YOUR HANDS CLEAN AND
FEELING GOOD**

USES NATURAL ACTIVE INGREDIENTS

HAVE NO NASTY CHEMICALS¹

ZEOSOFT™ - BETTER FOR THE ENVIRONMENT

- Contain only biodegradable plant and natural mineral ingredients.
- Unlike all other hand cleaners the active natural minerals go on cleaning as they return to the water systems.
- The unique cell structure in the SoftZeolite™ minerals allows them to go on and on sponging up contaminants.

1. NONE OF THE NASTIES THAT ARE FOUND IN OTHER HAND CLEANERS. No solvents, limonene, harsh acids, petrochemical derivatives, parabens, polymer beads, phosphates, VOC, turpentine, kerosene, urea, ammonia, chlorine, sulfates, ethoxylated ingredients, glycols, synthetic colours, synthetic fragrances, synthetic silicone, oxybenzones, TEA or DEA or MEA, caustic alkaline ingredients, pumice, sand, or any ingredient that is declared unacceptable by the Natural Products Association.
